⚡ SKILLS

Programming: Python, C++, JavaScript, TypeScript, SQL

Python & Data: Pandas, NumPy, Matplotlib, Exploratory Data Analysis (EDA), PCA

AI/ML: Machine Learning, AI Application Development, AI API Integration, Model Building

Development: REST APIs, Git, GitHub, VS Code, Postman

Databases: PostgreSQL, MySQL, MongoDB

Core CS: Data Structures & Algorithms, OOP, DBMS, Operating Systems

☰ PROFILE SUMMARY

Computer Science student with hands-on experience in Python and software development. Interested in building practical applications, solving problems, and growing as a Python Developer.

📁 EXPERIENCE

Technical Intern IBM

24 June - 27 Aug 26

Worked with Python for data analysis and exploratory data analysis, using libraries such as Pandas and Matplotlib to analyze and visualize data.

🎓 EDUCATION

B.Tech in Computer Science and Engineering AKTU

2023-2027

- CGPA: 8.43/10
- Focused on Data Structures & Algorithms, DBMS, Operating Systems, Computer Networks, Python and AI/ML.

🏗️ PROJECTS

DataInsight — Python Data Analysis & Prediction System Python, Pandas, NumPy, Matplotlib, Scikit-learn, EDA

2026

- Built a Python-based data analysis system to clean, explore, visualize, and analyze datasets.
- Applied EDA and Machine Learning techniques to identify patterns and generate predictions from the data.

PrepForge — GATE CS & IT Practice Platform Next.js, TypeScript, Node.js, PostgreSQL, Prisma

2026

- Built a full-stack platform for practicing GATE CS & IT previous-year questions with subject, topic, and year-wise practice.
- Implemented practice sessions, automatic evaluation, negative marking, bookmarks, notes, and performance tracking.

FitXGuide — Fitness & Sports Platform Next.js, TypeScript, Tailwind CSS

2026

- Developed a responsive fitness and sports platform with reusable components and user-focused application flows.
- Built the frontend using Next.js and TypeScript with a focus on clean structure, responsive design, and usability.

★ CERTIFICATIONS

AI IBM

2026

Completed technical internship focused on Python, data analysis, EDA, and AI/ML concepts through hands-on project work.
